Managing Editor

MASAHIKO MAEKAWA
Vice-Managing Editor

PUBLICATIONS BOARD

MANABU YUASA
TATSUO KAWAHIGASHI
MASAYOSHI YASUMOTO
KAZUO KUSUDA

Printed in Kinki University, Printing Department
CONTENTS

Restoration of Missing Data and Reconstruction of Dynamical Systems
Manabu Yuasa, Nawo Yamamoto, Masafumi Umetani and M.K.Das .............................................. 1

Gravitational Collapse of Cold Dark Matter in Early Universe using Schrödinger Equation
Masayoshi Kiguchi ................................................................................................. 7

Direct Detection of Intermediate Mass Compact Objects via Submillilensing
Kaiki Taro Inoue and Masashi Chiba ........................................................................ 11

Interpretation of Atmospheric Particles at an Urban Area
Sonoyo Mukai, Itaru Sano, Masayoshi Yasumoto and Yoshifumi Shinbo ......................... 15

Satellite Derived Aerosol Information over East Asia in Spring of 2003
Itaru Sano and Sonoyo Mukai .................................................................................. 23

The Effect of pH from Simulated Acid Rain on Multi-Element Contents of Leaves, Stems and Roots of the Crops
Osamu Fujino, Masahiko Maekawa, Tatsuo Kawahigashi, Takeshi Minami, Yuzuru Nakaguchi and Hideo Yamazaki ........................................................................................................... 29

Distribution of Stable Isotopes of Particulate Lead in the Atmosphere in Osaka, Japan
Yuzuru Nakaguchi, Yukihiro Matoba, Atsushi Shimizu, Hideo Yamazaki, Osamu Fujino, Takeshi Minami ................................................................................................................................. 35

Study on the Characterization of the Water-soluble Fluorescent Substances in Rainwater and Airborne Particulate Matter by Using Three-dimensional Excitation Emission Spectrometry
Yuzuru Nakaguchi and Takashi Tanaka ........................................................................ 41

2-D silver(I) Coordination Polymer with Octakis(benzylsulfanyl)naphthalene and Twisted Naphthalene Structure
Yusaku Suenaga, Atsuyoshi Ueda, Hisashi Konaka, Masahiko Maekawa ......................... 47

Flux of Organic Substance for Osaka Bay Sediment and its Decomposition Rate in Early Diagenesis
Hideo Yamazaki, Yoshihiro Ogawa, Atsushi Ishizawa and Ki-ichiro Yokota ....................... 57

Combination use of Multi-satellite/sensor Data
Mitsuru Nishina, Keiichi Anekawa, Itaru Sano and Sonoyo Mukai .................................... 75

Talks given at RIST Colloquium .................................................................................. 89
Talks

given at

RIST Colloquium

We understand that the diversity of the content should be the energy to construct sound cultural message tomorrow. RIST is thankful to guest speakers for their talks.
No. 290  January 20, 2005

Gravitational Lensing by Galaxy-clusters
D. Narasimha
Tata Institute of Fundamental Research, Mumbai India
and Astronomical Institute, Tohoku University

No. 291  February 10, 2005

Black Hole Shadow in Accretion Flow
Rohta Takahashi
Yukawa Institute for Theoretical Physics, Kyoto University.

No. 292  February 18, 2005

Galaxy Formation Theory using the Quasi-Analytical Approach
Motohiro Enoki
The Library of National Astronomical Observatory, Japan

No. 293  March 8, 2005

On the Motion of a Small Body in a Radiating Binary System
M.K. Das
Institute of Informatics & Communication, University of Delhi

No. 294  October 17, 2005

INDO-US Stellar Spectral Library
H.P. Singh
Department of Physics & Astrophysics, University of Delhi

No. 295  October 26, 2005

Single Particle Analysis of Atmospheric Aerosols over Higashi-Osaka
Yuzuru Nakaguchi
Department of Science, Kinki University

No. 296  December 8, 2005

The Elucidation in the History of Environmental Change Recorded in the Bottom Sediment of the Hydrosphere
Hideo Yamazaki
Department of Life Science, Kinki University
